

Blasting Hood PANORAMA

This very comfortable, lightweight, rubber-coated hood is suitable for any kind of abrasive blasting work.

The hood is designed with a wide viewing window. This is an important feature when the operator's movement is limited, e.g. in blasting rooms, while cleaning the internal surfaces of reservoirs, holds, etc. Its design ensures constant airflow to the visor in order to prevent misting. Its rubber coating makes the Panorama hood wear-resistant and provides increased noise insulation. The Panorama hood is equipped with a pressure regulator, an airflow indicator and a durable cape.

Order code	Model		Description
30200	PANORAMA		Blasting Hood, a durable Bisonyl cape
30203			Disposable visors, pack 100 pcs.
